

PILOT CUSTOMER PROPOSAL

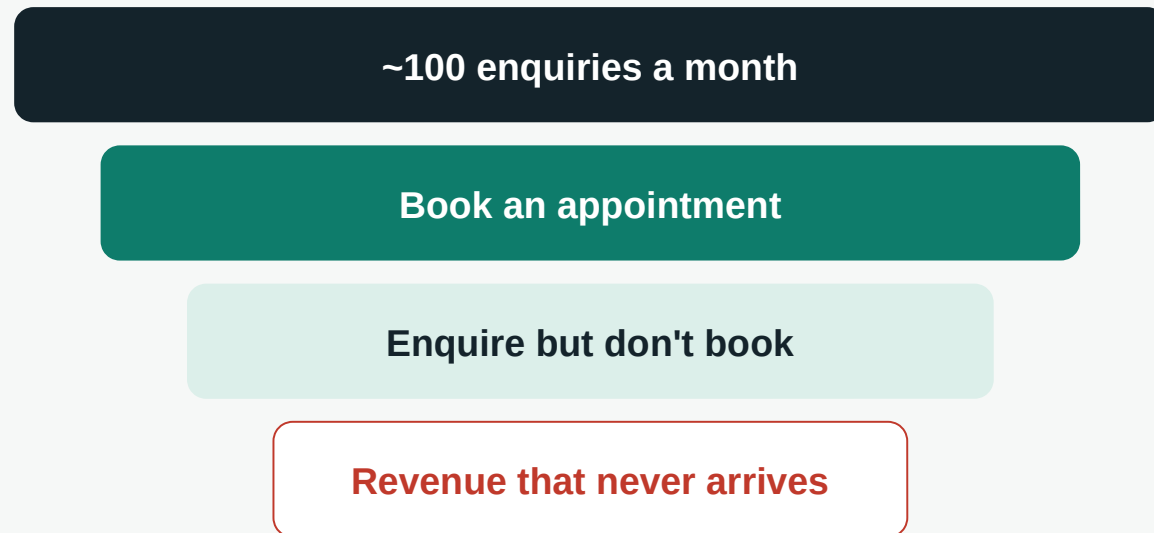

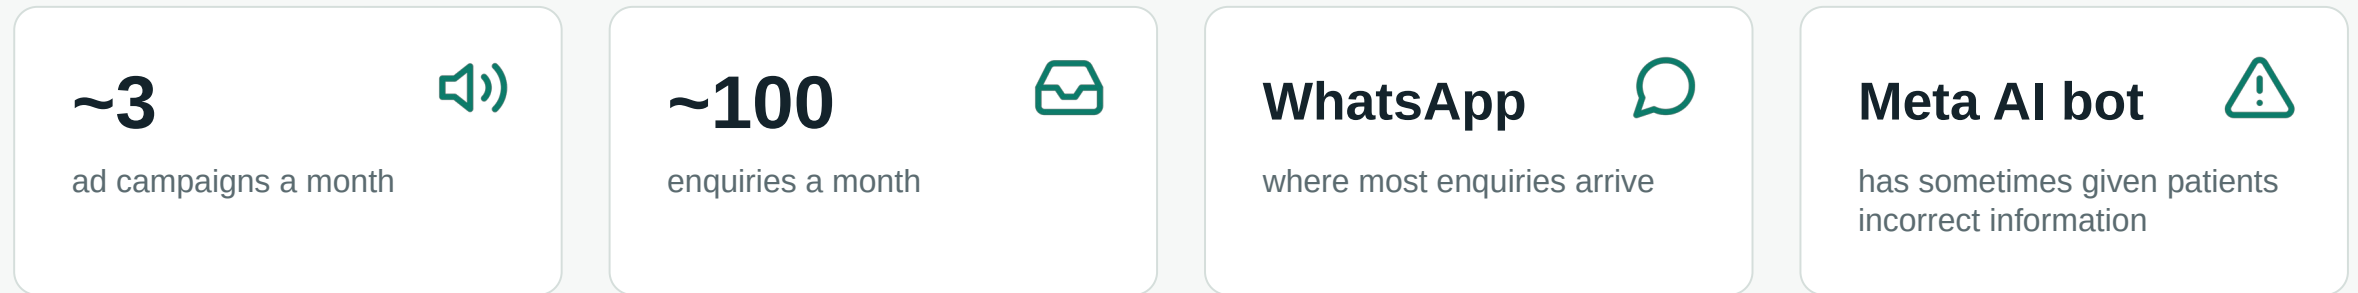

From WhatsApp enquiry to booked appointment

Prepared for Dr. Mohanapriya · October 2026

Bring back the patients who didn't return.

Your ads bring about 100 enquiries a month

Wrong or inconsistent answers

A patient given the wrong fee or detail may not come back to check.

No clear next step

Without location and need, the right consultation isn't offered.

Non-bookers fade away

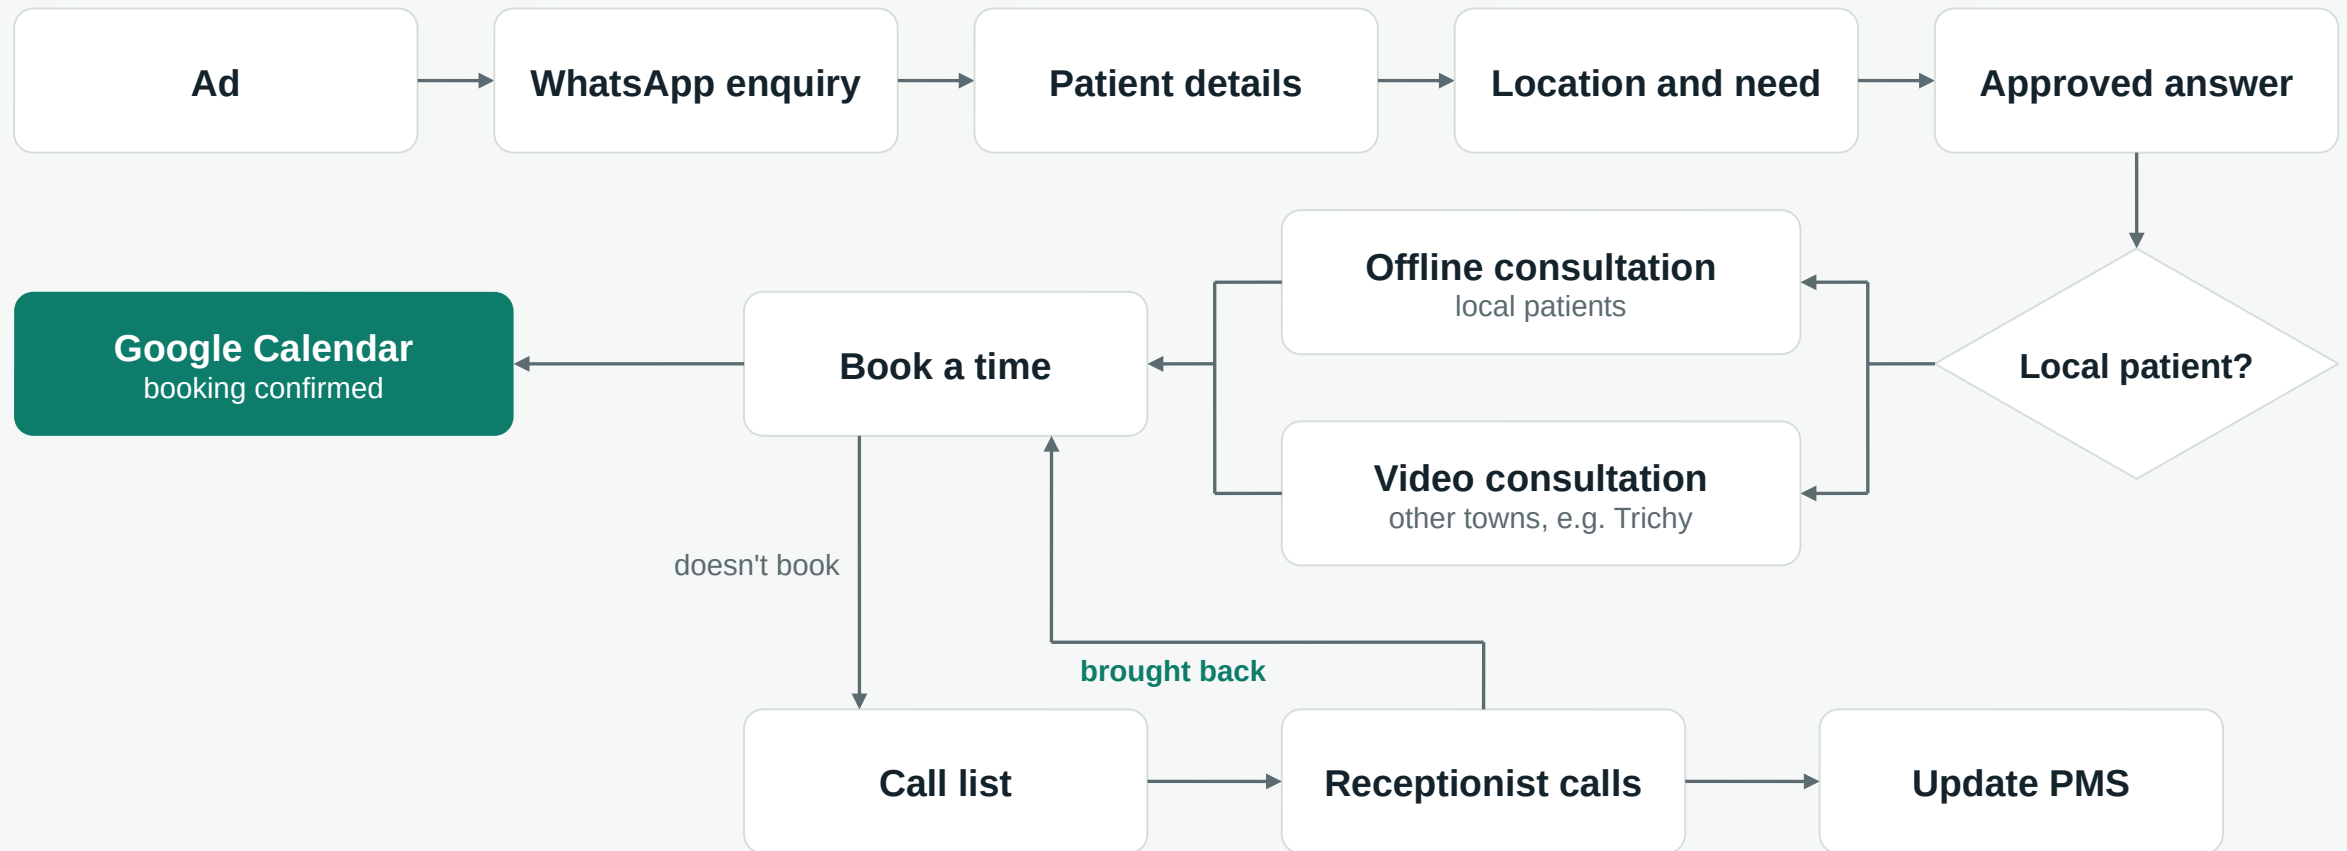

Without a call list, follow-up depends on memory.

No view of what works

No enquiry-to-appointment numbers for each campaign.

Figures shared by the clinic. How many book is measured from day one.

Every enquiry ends in the calendar or on the call list

One system connects enquiry, booking, and follow-up

Enquiry

- Answers only from information you approve
- Name, phone, location and need from every enquiry
- Anything unclear goes to your team, never guessed

Booking

- Local patients to offline consultation
- Other towns, such as Trichy, to video
- Booked into Google Calendar, with reminders

Follow-up

- Every non-booker on your receptionist's call list
- Each call logged; patients brought back or closed
- Your receptionist updates the PMS
- After each visit, a review request: positive reviews go to Google, negative feedback to your inbox

WORKS WITH

WhatsApp on your clinic's number, Google Calendar and your clinic PMS. Automatic PMS sync can be added if your PMS supports it.

MONTHLY REPORT

Enquiries, bookings offline and by video, patients brought back and conversion, for each campaign.

Pilot pricing, for pilot customers only

ONE-TIME SETUP

₹5,000

Standard ₹7,500 · you save ₹2,500

- Onboarding call to agree fees, timings and rules
- Approved answers, written by us, signed off by you
- WhatsApp enquiry flow: name, phone, location, need
- Routing: local to offline, other towns to video
- Booking into Google Calendar
- Your WhatsApp number connected, replacing the Meta AI bot
- Call list and staff chat for your receptionist
- Receptionist training and end-to-end testing

MONTHLY FEE

₹2,999 a month

Standard ₹4,999 · you save ₹2,000 a month

- Every enquiry answered, qualified and routed
- Booking, with reminders before each visit
- Call list until every non-booker is booked or closed
- Monthly enquiry-to-appointment report
- Answer updates when fees or timings change
- Review requests after every visit
- Hosting, monitoring and updates

Pilot pricing is offered only to pilot customers. Clinics that join after the pilot pay the standard price.

One patient brought back a month can cover the fee

 **Illustrative scenario only.** Actual results depend on patient conversion, treatment uptake and average treatment value. These figures are not a revenue forecast.

Value per patient

= consultation fee + (treatment rate × average treatment value)

Revenue recovered each month

= enquiries not booked × share brought back × value per patient

Example Replace with your clinic's numbers

Enquiries a month	100 (clinic)
Enquiries that book today	40%
Consultation fee	₹500
Consultations that go on to treatment	50%
Average treatment value	₹15,000
Non-bookers brought back	20%

60

enquiries not booked a month

₹8,000

value of one booked patient

₹96,000

revenue recovered a month
from 12 patients brought
back

1 patient

a month covers the ₹2,999
fee

Support is included; out-of-scope costs stay separate

SUPPORT INCLUDED

- Help on WhatsApp and phone for the doctor and receptionist
- Problems investigated and fixed
- New questions, answers or booking rules on request
- A short monthly review of your report
- Your feedback shapes how Patientcurve develops

AGREED WITH YOU AT ONBOARDING

- Consultation fees and timings, offline and video
- Which towns count as local
- Booking rules: days, hours, slot length, notice
- Approved answers for the WhatsApp flow
- How patients join video consultations

NOT INCLUDED

- WhatsApp message charges set by Meta
- Automatic PMS sync, quoted separately if your PMS supports it
- Running your ad campaigns

THE DECISION

Build a more consistent path from enquiry to care

- ✓ **More revenue:** more enquiries turn into appointments.
- ✓ **More reviews:** positive reviews land on Google; negative feedback lands in your inbox.
- ✓ More consistent patient follow-ups.
- ✓ Fewer missed booking opportunities.
- ✓ Better reactivation of inactive patients.
- ✓ Improved visibility into enquiry and appointment outcomes.

Next step Approve the proposal and pay the ₹5,000 pilot setup fee to begin onboarding. Pilot pricing: ₹5,000 setup · ₹2,999 a month, for pilot customers only.
